

Linking Intervention Programs to a Template

Only users with the DATAMAP – INTERVENTION ADMIN role can link intervention programs to a template.

Navigate to **DataMap > Admin > Manage Intervention Templates**.

- 1 In the list, hover your cursor over the name of the template you want to link to a program. When icons display, click .

Template	Programs	Tiers
Example Template	(No Linked Programs)	

The **Edit Intervention Template** screen displays.

- 2 On the **Programs** tab, click **Link Program**.

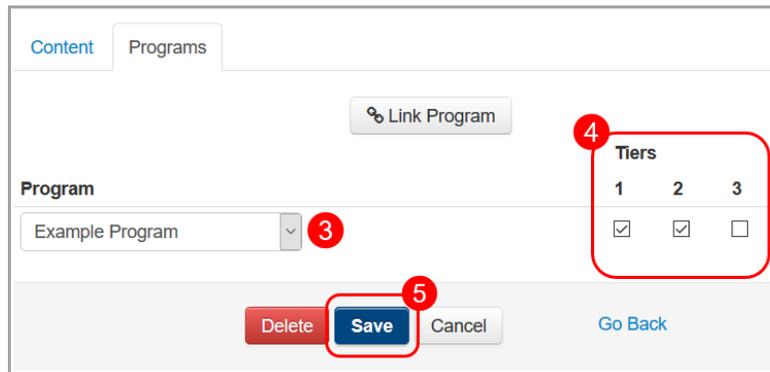

Name: Example Template

Content | Programs

- 3 Select a program from the **Program** drop-down list.
- 4 Select the checkboxes for the **Tiers** you wish to assign to the linked program.
- 5 Click **Save**.

Content | Programs

Program

Example Program 

Tiers

1	2	3
<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Delete **Save** Cancel Go Back

If you want to link additional programs to your template, repeat steps 2 through 5.

Note: You can use a different template for each tier of an intervention program. You can also use the same template for every intervention program and tier level.
